Uvod

Korišćeni programski jezici

Prilikom izrade ovog projekta korišćeni su sledeći alati: HTML, CSS, JavaScript, XML, jQuery, Bootstrap, JSON i AJAX. Korišćen je Visual Studio Code kao radno okruženje.

Opis funkcionalnosti

index.html

- Dinamički ispis navigacione liste u header-u iz JSON file-a koji je dohvaćen koristeći AJAX
- Dugme u prvoj sekciji sajta koje odmah nudi korisniku da ode na stranicu menu.html odakle može da vidi izbor proizvoda koje može da naruči
- Slajder koji je urađen pomoću Bootstrap-a koji prikazuje tri najpopularnija proizvoda i kratak opis njihovog sadržaja, kao i dugme koje isto vodi ka stranici menu.html
- Kontakt forma, čija je validacija odradjena JavaScript-om i javlja korisniku grešku prilikom pogrešnog popunjavanja forme
- Linkovane ikonice koje vode ka društvenim mrežama
- Dinamički ispisan footer koji sadrži linkove ka dokumentaciji sajta i sitemap-u

menu.html

- Dinamički ispis navigacione liste u header-u iz JSON file-a koji je dohvaćen koristeći AJAX
- 4 padajuće liste kreirane putem JSON-a i AJAX-a pomoću kojih se proizvodi filtriraju i sortiraju; moguće je kombinovati filtriranje po svim kategorijama i sortiranje
- Kartice uradjene pomoću Bootstrap-a koje prikazuju sliku proizvoda, njen opis i cenu – sve informacije prikazane na kartici su izvučene iz JSON file-a AJAX-om i klikom na dugme se selektovani proizvod putem Local Storage-a šalje na stranicu order.html (funkcionalnost “korpe”)
- Dinamički ispisan footer koji sadrži linkove ka dokumentaciji sajta i sitemap-u

about.html

- Dinamički ispis navigacione liste u header-u iz JSON file-a koji je dohvaćen koristeći AJAX
- Tekst koji poseduje dugme “Show | Hide” koje omogućava korisniku da sklanja ili prikazuje tekst – napravljeno preko jQuery-ja
- Dinamički ispisan footer koji sadrži linkove ka dokumentaciji sajta i sitemap-u

gallery.html

- Dinamički ispis navigacione liste u header-u iz JSON file-a koji je dohvaćen koristeći AJAX
- Dinamički ispis galerije pomoću JSON-a i AJAX-a
- Dinamički ispisan footer koji sadrži linkove ka dokumentaciji sajta i sitemap-u

order.html

- Dinamički ispis navigacione liste u header-u iz JSON file-a koji je dohvaćen koristeći AJAX
- U prvom delu stranice se prikazuju proizvodi koji su prethodno dodati u “korpu” na stranici menu.html. Ako nije izabran ni jedan proizvod korisnik se obaveštava da nije izabrao ništa, u suprotnom ako jeste ispisuju se proizvodi u tabeli – redni broj proizvoda u “korpi”, njegov naziv, cena kao i dugme “delete” kojim se proizvod može obrisati iz “korpe”
- U drugom delu se nalazi forma koja je neophodna da se popuni kako bi korisnik uspešno izvršio porudžbinu. Polja forme se kontrolišu regex-ima, i tek nakon što su sva polja uspešno popunjena, aktivira se dugme kojom se “poručuje”
- Dinamički ispisan footer koji sadrži linkove ka dokumentaciji sajta i sitemap-u

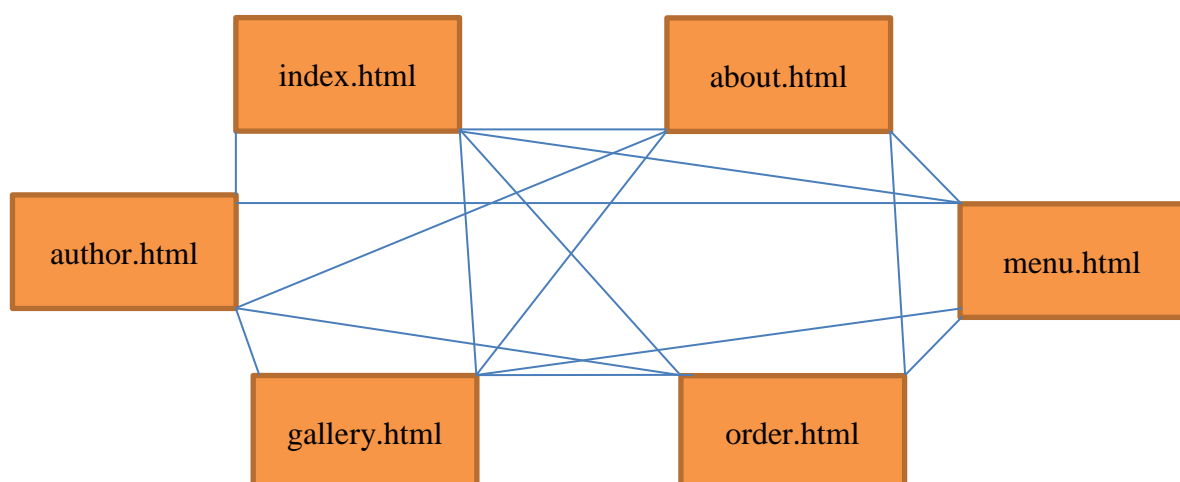

author.html

- Dinamički ispis navigacione liste u header-u iz JSON file-a koji je dohvaćen koristeći AJAX
- Dinamički ispisan footer koji sadrži linkove ka dokumentaciji sajta i sitemap-u

index.html

OUR RESTAURANT

It all began in 2015 when we opened our hamburger restaurant in Belgrade. We wanted to serve good, affordable food of the highest quality.

The best burgers require the best ingredients. But just as important is having the right staff with a passion for quality. We are always looking for people who want to help us deliver great taste to our customers. As an employee, you receive extensive training and continuing education.

Every day, more than 200 guests visit BURGER EMPIRE restaurant. And they do so because our restaurants are known for serving high-quality, great-tasting, and affordable food. We are number one quality burger restaurant in Serbia

Every day, more than 200 guests visit BURGER EMPIRE restaurant. And they do so because our restaurants are known for serving high-quality, great-tasting, and affordable food. We are number one quality burger restaurant in Serbia

U početnoj stranici (index.html) se nalaze opšte informacije o restoranu. Nalazi se dinamički ispisan navigacioni meni putem koga se pristupa drugim stranicama (JSON i AJAX). Slajder je napravljen Bootstrap-om i sadrži slike proizvoda i njihove kratke opise kao i dugme koje vodi ka meniju restorana. Kontakt sekcija sadrži kontakt formu sa validacijom (native JavaScript – regularni izrazi). Na kraju stranice se nalazi dinamički ispisan footer sa linkovima ka dokumentaciji i sitemap-u.

Na stranici Menu (menu.html) je korišćeno Bootstrap-ovo gotovo rešenje za kartice na kojima se nalaze slika, opis i cena proizvoda. Svi proizvodi su učitani iz JSON file-a putem AJAX-a. Klikom na cenu proizvod se putem Local Storage-a šalje na stranicu order.html u kojoj korisnik ima pregled svega što je kliknuo na ovoj stranici. Takođe korisnik može da filtrira proizvode po tri kategorije i da ih sortira na četiri načina. Sadrži i prethodno opisani dinamički ispisan navigacioni meni i footer.

about.html

ABOUT US

Welcome to Burger Empire!

A place where you will enjoy the best burgers in town! Our burgers are made from 100% black angus meat, which is the highest quality type of beef and therefore the best meat there is. The menu includes various combinations of the highest quality fresh ingredients and accessories, which satisfy the tastes of even the biggest gourmets. In our space, which we designed with a lot of love, in addition to delicious food, you can also enjoy a pleasant atmosphere and excellent service. We will make sure that you feel at home and that the taste of our specialties will remain in your memory for a long time!

[Show](#) | [Hide](#)

About the production process

We are proud of our own meat processing, thanks to which we are sure that the burgers that leave our kitchen are prepared from the highest quality raw materials. High-end machines, recipes that have been achieved through decades of experience in production, and leading suppliers in Serbia, provide products that bring with them original tastes of true quality. By implementing the HACCP system and implementing standard operating procedures in all stages of production and preparation, food safety has been raised to a high level.

Show | Hide

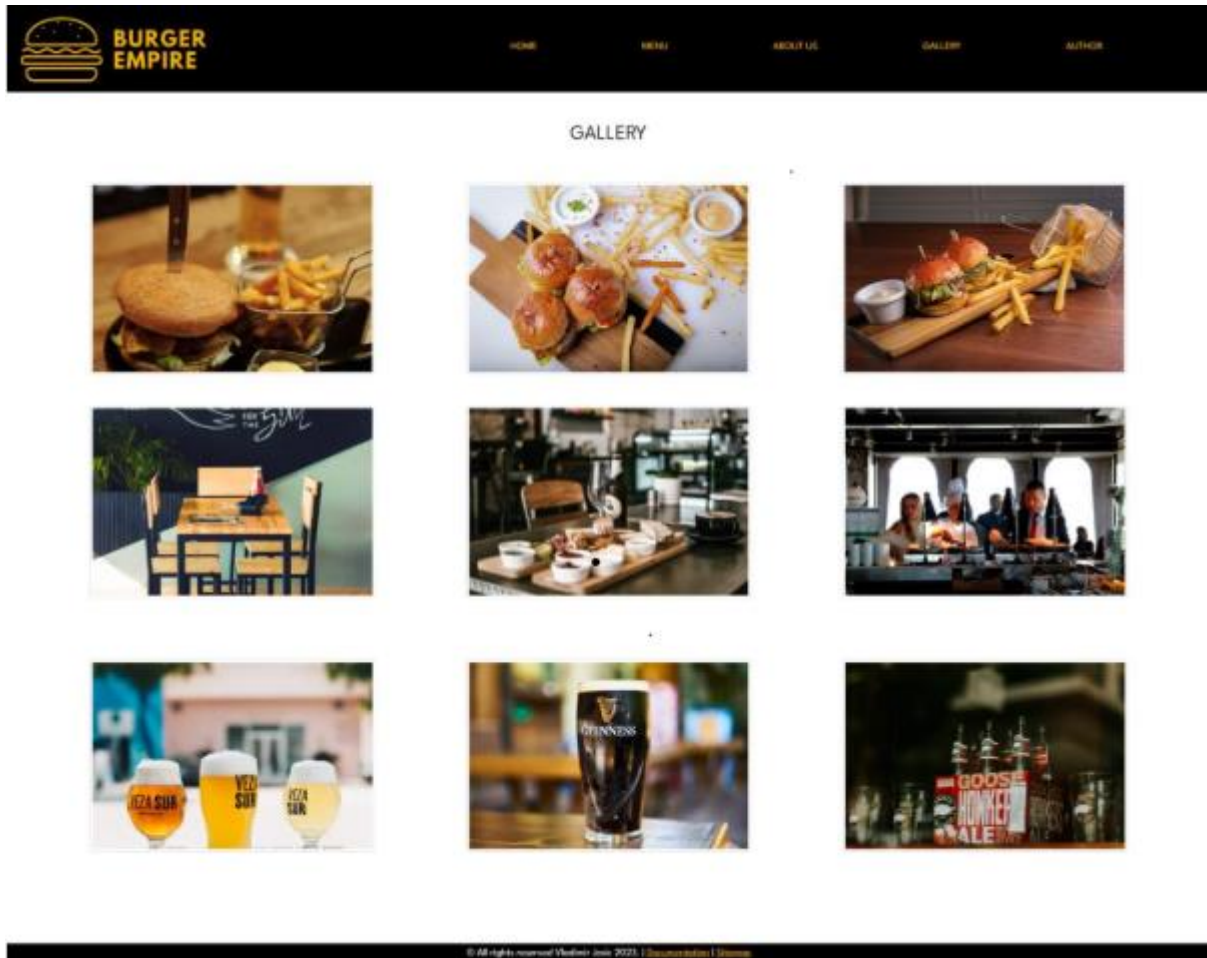

Oil quality control

We paid special attention to the quality of the oil used for frying side dishes in Burger Bars, using a unique device on the world market for filtering oil for frying VITO® and instruments for testing the quality of the oil, which is regularly changed accordingly. By using the VITO® device, the taste and quality of the food is improved, i.e., we serve our guests healthier deep-fried food that does not contain carbon, which is a product of the long-term use of frying oil. It has been proven that the use of VITO® devices has a positive effect on critical parameters such as Total Polar Matters - TPM.

Show | Hide

Na stranici About us se nalazi tekst o restoranu i načinu rada. Dugme “Show | Hide” služi da bi korisnik mogao da sakrije ili prikaže određeni deo teksta (jQuery). Sadrži i prethodno opisani dinamički ispisan navigacioni meni i footer.

[gallery.html](#)

Stranica Gallery sadrži dinamičku ispisanu galeriju sa slikama (JSON i AJAX). Sadrži i prethodno opisani dinamički ispisan navigacioni meni i footer.

Stranica Order se sastoji od dve sekcije. U prvoj sekciji se nalazi tabela sa svim proizvodima koje je korisnik prethodno izabrao na stranici Order. Ispisuje se redni broj proizvoda u „korpi“, ime proizvoda, cena kao i dugme delete sa kojim korisnik može izbrisati proizvod iz korpe. Ako ne postoji ni jedan proizvod u „korpi“ onda se korisnik obaveštava da nije izabrao proizvod. Druga sekcija sadrži formu u koju korisnik unosi potrebne informacije kako bi dostava bila uspešna. Polja su kontrolisani regularnim izrazima i tek nakon što je uspešno popunjena forma, aktivira se dugme kojim korisnik završava svoju porudžbinu. Sadrži i prethodno opisani dinamički ispisan navigacioni meni i footer.

author.html

Stranica Author sadrži sliku i opis autora koji je pravio projekat. Sadrži i prethodno opisani dinamički ispisan navigacioni meni i footer.
